- 1 Marque con un círculo el tipo de producto.
- 2 Anote el ancho y el largo aproximándolo a 1/8" de pulgada.
- 3 Indique el nombre del color y número del mismo tal como aparece en el libro de muestras.
- 4 Marque con un círculo el tipo de instalación: ¿Usted montara la cortina o persiana dentro del marco de la ventana o afuera del mismo? Por favor, tome nota de:
 - La fábrica hará las deducciones necesarias para la instalación dentro del marco de la ventana. (inside mount)
 - Para la opción fuera del marco, por favor asegúrese de agregar suficiente ancho adicional a la medida de la abertura de la ventana, para permitir una cobertura adecuada. Considere, también, el agrupamiento de las lamas en las cortinas verticales y los Paneles deslizables. Visite www.MemberBlinds.com para mayor información.
- 5 "Tilt" (El control de abrir y cerrar). Se utiliza con persianas horizontales, aluminio, madera e imitación de madera – ¿Dónde quiere el control que abre y cierra las tablillas? ¿En el lado izquierdo o derecho de la cortina? Esto también aplica a las persianas verticales – El control giratorio hará que las lamas abran y cierren.
- 6 "Lift / Pull" (Levantar y Jalar). Sube y baja las persianas horizontales, cortinas celulares, plegadizas, enrollables, romanas y naturales.
- 7 "Stack", la opción agrupar, se utiliza con las persianas Verticales y con los Paneles deslizables, Por favor, tome nota de:
 - Para las persianas Verticales indique dónde quiere que las lamas se agrupen cuando este completamente abierta la cortina.
 - Para los Paneles Deslizables, indique en qué dirección quiere que los paneles se muevan cuando los corra para cerrarla.
- 8 El precio está indicado en la guía de precios, en el exhibidor de la tienda o en www.MemberBlinds.com.
- 9 El costo total resultará de la suma del costo de la cortina o persiana más los cargos por opciones adicionales.
- 10 Por favor anote en "Instrucciones especiales" cualquier mejora, opción, etc., que quiere indicarle al fabricante. Por ejemplo: Requiriendo soportes inferiores, medidas para dos cortinas en un mismo cabezal, etc. Usted puede indicar en qué habitación iría cada cortina, y nosotros haremos lo posible por agregar esta información a la etiqueta de cada cortina o persiana.

- Circle type of product.
- Note width and height to nearest 1/8 inch.
- Color Name and Color Number as shown in sample book.
- Circle the type of installation: Will you mount the blind / shade Inside the window casing (opening) or Outside. Please note:
 - Factory will take deductions for Inside mount.
 - For Outside mount, please be sure to add enough additional width AND height to the window opening size to allow for adequate coverage and privacy. Also consider the "Stack" of Vertical Blind vanes and Sliding Panels. Go to www.MemberBlinds.com for more information.
- Tilt applies to Horizontal Blinds; Mini, Wood, Faux Wood – where would you like the control that tilts the slats open and closed? On the Left or Right side of the blind?
- Lift / Pull raises and lowers horizontal blinds, cellular, pleated, roller, roman and natural shades.
- "Stack" applies to Vertical Blinds and Sliding Panels. Please note:
 - For Vertical Blinds, tell us where you want the vane to "stack" when fully opened.
 - For Sliding Panels, tell us which direction you want the panels to move when you draw them closed.
- Cost is shown in price guide, on display in store, or on www.MemberBlinds.com.
- Total Cost for blind / shade PLUS surcharge options.
- Please note in Special Instructions any upgrades, options, etc., you want to pass on to the manufacturer. For example: requesting hold down brackets, sizes for 2 blinds on one headrail, etc. You may note particular rooms and windows and we will do our best to add this information to the label on the blind or shade.
